Manufacturing

Frost Brown Todd offers trade remedies through the settlement of issues such as country of origin, copyright and trademark infringement, anti-dumping measures, and boundary or territory disputes. In addition, our attorneys provide arbitration of unsettled disputes.

Disputes can arise across international borders as protocol and procedures can be unfamiliar to one or both parties. Also, international laws need to be observed and understood. ISG can help with this process in the following areas:

- International trademark and copyright infringement
- Public/Sovereign States Law Advice
- Settlement Structuring for International Disputes
- International Litigation and Arbitration
- Counsel for Litigation-related Contract Clauses
- Product Liability Issues
- Choice-of-Law Terms
- International Estate Planning
- Transfer Tax Treaties' Effects
- Fraud Claims
- Anti-dumping Investigation
